### TECHNICAL SKILLS AND EXPERIENCE:

**Strong:** Javascript, Git, NodeJS/Express, MySQL, HTML, CSS

**Experienced:** React, Python, Express Handlebars, MongoDB

### APPLICATIONS DEVELOPED:

#### Streaming Assistant:

- Application helping users to find information and trailers about what they want to watch next.
- Developed using Javascript to deliver content from multiple API calls to the user.
- Basic layout created using HTML, with Bootstrap and additional JS libraries adding polish.
- Github: <https://github.com/JoshBruggeman/novemberProject>

#### Liri-Node App:

- App mimicking some of the functionality of Apple's Siri.
- Utilizes NodeJS to retrieve data from sites like Twitter and Spotify and display this data to the command line.
- Github: <https://github.com/JoshBruggeman/liri-node-app>

#### Gaming Social:

- Helps users interested in board gaming as a hobby connect with other likeminded people.
- Uses Javascript to handle front-end logic and access APIs to retrieve and display data.
- Node and Express were used the server-side logic of the app.
- React created much of the UI, allowing the interface to dynamically update without refreshing.
- MongoDB to store and update data, including game information and user credentials.
- PassportJS was used to create create accounts and passwords for users then authenticate them upon return.
- Github: [https://github.com/AlanMarcus/gaming\\_social](https://github.com/AlanMarcus/gaming_social)

### JOB EXPERIENCE:

#### Hertz Rental Car - St. Charles, IL

2013-2016

- Responsible for day to day operations of local Hertz branch, often managing entirely solo.
- Tasked with maintaining relationships with local businesses and developing new sources of revenue.
- Provided details to upper management detailing our branch's sales performance.
- Engaged in Hertz corporate training and development programs while with the company.

### EDUCATION:

- Northwestern University Coding Boot Camp
- University of Illinois, Bachelor of Arts, Communications, Champaign, IL

2016-2017

2009-2013

### PERSONAL:

- Enjoy PC gaming, including building and upgrading my personal desktop's hardware. I also enjoy tabletop gaming, which usually has me explaining the rules to my friends.
